Newell Rubbermaid
Brands That Matter

Hi,

Thank you for your enquiry.

None of the European models, i.e. those that are Certified to UNECE R44 (products sold within the European Economic Area) are affected by this notice. The car seats affected by the recent recall notice are specifically U.S. compliant car seats. If you have purchased your car seat within such a European country, you will not be affected by the recent announcement.

An easy way to check is that the U.S. buckles affected are completely different to those on European models:

U.S. model buckle

European buckle

Any child seat sold in Europe must conform to the Regulation UNECE R44, which is usually denoted with the letter E in a circle and a number (the number indicates the Approval Authority that Certified the product - for example, the U.K. is 11).

I hope this clarifies matters for you. However if you have any further questions please do not hesitate to contact me on the number below.
